

Ukrainian State Academy of Railway Transport

Ukrainian State Academy of Railway Transport is a top-rank higher educational establishment of the 4th level of accreditation reputable for delivering high quality teaching and research. Nowadays the Academy trains more than 18 thousand home and international students of the basic faculties, preparatory department, postgraduate, doctorate courses, and Institute of Retraining and Upgrading Qualification.

The Academy counts 47 departments, most of them cooperate with industrial enterprises. Training is provided on a full-time and part-time (extra-mural) basis. The Academy has an affiliated institute in Donetsk. Our graduates have secured well-paid jobs at rail transport enterprises, underground railways, and other industries of the national economy (construction, machine engineering, defence, etc.)

The Academy's faculty includes 662 teachers (about 82 per cent with scientific degrees) among them 20 academicians and 12 corresponding fellows of the Ukrainian National Academy of Sciences and branch academies of Ukraine.

At the students' disposal there are well-equipped laboratories, a scientific and technical library with more than 1,500,000 books, mediateque, large computer centre with the access to the internet, sports centre, health care centres, seven students hostels and vacation centres in picturesque spots of Ukraine.

The teachers and scientists of the Academy improve their qualification and deliver lectures at educational establishments of Germany, Sweden, Great Britain, France, Slovakia, Israel, Greece and CIS countries. They participate in international conferences in Germany, Holland, and USA and South Africa. The teachers are writing articles for famous international magazines and journals.

Students of our Academy receive different scholarships on the state, scientific, name basis, as well as scholarships of Scientific Council of the Academy, President of Ukraine and the Verhovna Rada.
