**"International Business Management"**  
**in specialty 073 "Management"**  
**in the field of knowledge 07 "Management and**  
**Administration"**  
**of the second level of higher education (master's)**  
**at the Ukrainian State University of Railway Transport**

The economic globalization processes are constantly causing an increase in the scale of cooperation between Ukrainian companies and foreign partners. This tendency makes heads of enterprises in various economic sectors interested in hiring qualified specialists in international business management. Hence, there is a need for training such specialists who will have in-depth theoretical knowledge and practical experience in the implementation of decision-making functions for international business management.

The educational program under review provides training in the field of international business management, forms professional competencies for solving complex, specific problems related to management, marketing, finance, international business, research in the field of international economic relations, management of international economic relations between organizations, regions, states, etc.

Disciplines taught within the educational program are professionally oriented, which is disclosed in the course topics. The integral, general, and special competencies of the educational and professional program are based on the training's different types and tasks. Due to their relevance and practical significance, the learning outcomes create a basis for successful management activity of graduates specializing in international business management.

Recommendations: consider the possibility of introducing elements of a dual education system in the educational program "International Business Management."

Based on the above, the reviewed educational program "International Business Management " can be recommended as quality and approved for implementation at the Ukrainian State University of Railway for specialty 073 "Management" in the field of knowledge 07 "Management and Administration" of the second level of higher education (master's).
